SUMMARY

Full-Stack Developer specializing in secure applications, scalable APIs, and production-ready systems, with proven open-source contributions to a package serving 500k+ weekly downloads

OPEN SOURCE CONTRIBUTIONS

express-mongo-sanitize — npm package (500k+ weekly downloads)

- Resolved an Express 5 incompatibility by replacing a read-only getter with a sanitized static value, preventing silent req.query sanitization failures.
- Fixed 8 pre-existing test failures and implemented 4 new compatibility tests to ensure stable parsing.
- PR: github.com/fiznool/express-mongo-sanitize/pull/203

PROJECTS

Full-Stack E-Commerce Platform — MERN Stack:

- **Live App:** https://shops-frontend.vercel.app
- Built a production-grade platform covering the full user lifecycle with an admin dashboard and integrated PayPal SDK.
- Engineered robust security using JWT/HttpOnly cookies, CSRF protection, NoSQL injection prevention, and multi-layer file upload scanning.
- Optimized performance with RTK Query cache invalidation and designed scalable MongoDB schemas, deployed via Vercel and Render.

Product Manager:

- **Live App:** https://product-manager-chi-eosin.vercel.app
- Developed a high-performance inventory system featuring real-time synchronization across web and desktop platforms.
- Implemented a 30-day "Safety Net" recovery system for deleted items and automated PDF report generation.
- Ensured stability by writing a comprehensive automated testing suite to catch bugs pre-deployment.

EDUCATION

Master of Science in Software Engineering (In Progress) 2024 – Present
University of Saad Dahleb – Blida, Algeria

- Relevant coursework: Software Architecture, Advanced Development Methodologies, Project Design

Bachelor of Science in Computer Systems 2020 – 2024
University of Saad Dahleb – Blida, Algeria

- Final Year Project: Lawyer-client management platform using Firebase (backend) and Android Studio / Java (mobile)

- **Scientific Baccalaureate — Bien (Above Average grade)** 2021

Houari Mahfoud High School – Blida, Algeria

- Specialization: Experimental Sciences

EXPERIENCE

IT Assistant / Cyber Café Operator **Blida, Algeria | ~2 Months**

- Provided technical support including software installation and troubleshooting
- Assisted customers with internet services, document processing

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS, Redux Toolkit, RTK Query

Backend: Node.js, Express.js, REST APIs, JWT Auth, Secure File Uploads

Database: MongoDB, Turso (SQLite)

Testing: Vitest, Playwright, React Testing Library, Postman

Deployment & Tools: Git/GitHub, Vercel, Render, Cloudinary

OS & Scripting: Linux (Debian), Bash scripting, WSL, VirtualBox/VMware, Vim, Ollama (local AI)

Architecture: MVC, Clean Architecture, UML

Languages: Arabic (Native), English (Professional Working), French (Professional Working)
